SecureX (XDR)

Mo, 06.02	Tu, 07.02	We, 08.02	Th, 09.02	Fr, 10.02

Mo, 06.02

- **TECSEC-2486** — Take your security stack to XDR and beyond, with SecureX

Tu, 07.02

- **BRKSEC-2122** — Leveraging SecureX with your IT Service Management (ITSM) and SIEM Systems for Incident Investigation
- **BRKSEC-2754** — Making XDR Investigations and SOAR Automation Work by Unifying Assets

We, 08.02

- **BRKSEC-1483** — SecureX All The Things (With Hosted and Remote Relays)
- **BRKSEC-3404** — Prepare Your Defence with Cisco SecureX Orchestration
- **IBOSEC-2007** — Control is an Illusion: Utilizing Red-Team Tactics to Infiltrate Evil Corp
- **BRKSEC-2201** — SecureX and Secure Firewall Better Together

Th, 09.02

- **BRKSEC-2288** — From Ship to Shore: Integrations, Collaboration, and (Securely) Taking Control Beyond the Cisco Secure Email Gateway
- **BRKSEC-2133** — Stronger together: Enhance your threat detection with Cisco security solutions and Splunk
- **BRKSEC-1016** — How to Use Orbital Advanced Search in Your Secure Endpoint Workflows

Fr, 10.02

- **BRKSEC-3116** — Finding, Confirming and Mitigating Fresh Indicators of Compromise (IoC) with SecureX Automation
- **BRKSEC-2931** — Building, Proving, and Extending Detections in Secure Analytics

General Security Technologies

Mo, 06.02	Tu, 07.02	We, 08.02	Th, 09.02	Fr, 10.02
	BRKSEC-2487 Cat and Mouse - Defender's need better Mousetraps!	BRKSEC-2227 Evaluating and Improving Defenses With MITRE ATT&CK		LTRSEC-2006 Breach Defense Technologies BRKSEC-3129 Public Key Cryptography - from RSA and EC to post-quantum
